

Intuition

Ex.1. Warm up!

- What does the picture say about intuition?
- How do you define and understand the word 'intuition'?

Ex.2.

Match the words in bold (1-7) with their definitions (a-g).

How can you **deem** this book hilarious?
It's so boring!

1.

1.

a.

sudden, without preparation

Wow! She had a **premonition** of the plane crash and it really happened two days later!

2.

2.

b.

a person with little experience

Give him some time to learn, he's just a **novice** here.

3.

3.

c.

a set of cards (AmE)

I didn't think that through. It was just a **snap** decision.

4.

4.

d.

a set which is a part of another set

We don't need to know everything. We just need a **subset** of the data collected yesterday.

5.

5.

e.

to consider sth in a particular way

I would like to play Poker. Does anyone have a **deck** of cards here?

6.

6.

f.

a number, amount, or situation which can change

X and Y? There are too many **variables** in this equation.

7.

7.

g.

a feeling that sth (usually bad) is going to happen

Listening comprehension

Ex.3.

Watch the video and say if the following sentences are True or False.

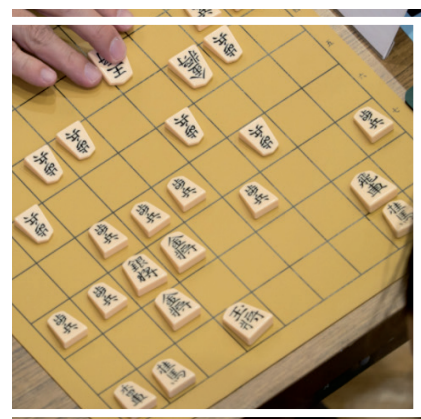

- ☐ T ☐ F 1. Understanding something immediately without conscious reasoning is about seeing into the future.
- ☐ T ☐ F 2. The chess masters have photographic memory.
- ☐ T ☐ F 3. People who trust their gut while making complex decisions can be more satisfied with their decision than those who think things through first.
- ☐ T ☐ F 4. Most people can't recognise their own voice after being recorded.
- ☐ T ☐ F 5. In the card game, the participants' unconscious minds started understanding the pattern later than their conscious minds.
- ☐ T ☐ F 6. In case of empathy, it's better to follow your systematic thinking and analyse the information available first.

Extra question!

SHOGI is a Japanese version of traditional Chess and is thought to be really complex. The most significant difference is probably the fact that pieces can re-enter the game. Look at the pictures and answer the questions.

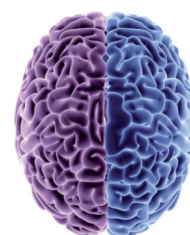

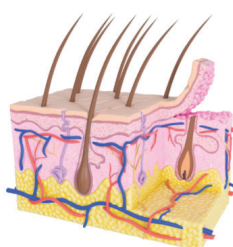

1. Would you be interested in learning to play the game? Why(not)?
2. Can intuition help you play games like that better than other people?

Check your memory!

There were 3 medical terms used in the video: **cortex**, **basal ganglia**, **epidermis**.

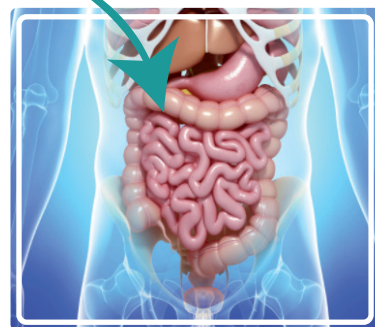

Can you remember what they are?

Ex.4.

1. Why do you think intuition is also called 'a gut feeling'?
2. Have you ever followed your gut feeling? When? Was it right?
3. In what situations it's better NOT to trust your gut?
4. Do you think our intuition is a real 6th sense? Why (not)?
5. Give 3 examples of situations when we should trust our intuition.
6. What would your intuition say in the following situations:
 - a stranger gives you a really expensive gift
 - your best friend asks you to lend him a big sum of money and begs you not to ask any questions
 - your boss invites you for dinner
 - your partner says you really need to talk in the evening
 - the police call you and ask to come to the police station immediately
 - somebody calls you and says that you've won a prize
 - your brother/sister tells you they've got some news for you

Gut(s)

Ex.5.

Try to interpret the following quotes and explain what the authors probably had in mind:

*Don't try to comprehend with your mind.
Your minds are very limited.
Use your intuition.*

Madeleine L'Engle, *A Wind in the Door*

*Watching television is like
taking black spray paint to
your third eye.*

Bill Hicks

*Dull minds are never
either intuitive
or mathematical.*

Blaise Pascal *Pensées*

*Intuition is the highest form
of intelligence, transcending all
individual abilities and skills"*

Sylvia Clare, "Trusting Your Intuition: ..."
